9 Straits View, #05-07 Marina One West Tower

INTRODUCTION

Tilkoblet offers digital transformation solutions, facilitating the synchronization of data between our SaaS-based software and regulatory bodies such as ACRA, IRAS, and conventional banks in Singapore.

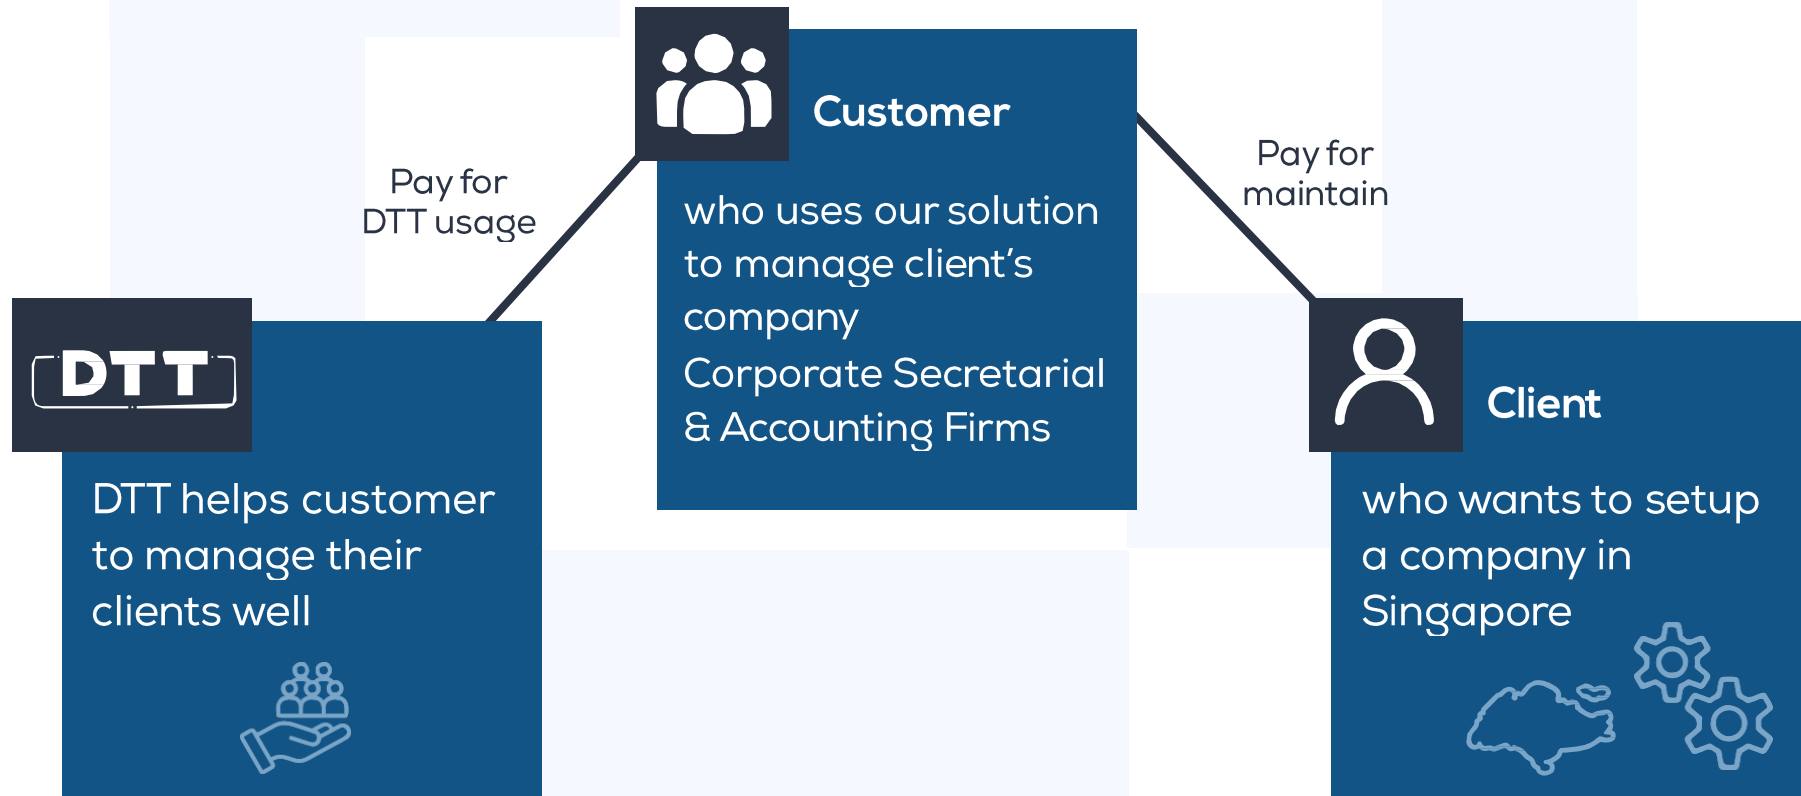

Our solutions empower customers to seamlessly exchange data with ACRA/IRAS, facilitating efficient communication.

Furthermore, customers have the convenience of seamlessly obtaining bank statement CSV files from any banks in Singapore with just one single mouse click.

Our solutions primarily target Corporate Secretarial Firms, Law Firms and Accounting Firms.

BUSINESS RELATIONS

  INLAND REVENUE
AUTHORITY
OF SINGAPORE
official registrar and authorities

PROBLEMS CORP-SEC IS FACING

Data Privacy

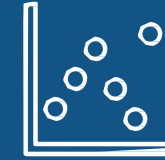

Risk of leakage of sensitive corporate information by third-country operatives

H/R Management

Continuity of work is compromised due to frequent turnover

Scattered Client Information

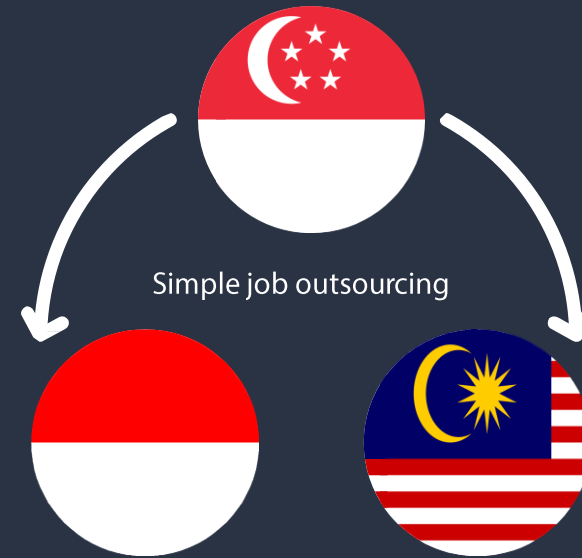

Since client information is scattered across various applications, integrated management is difficult

DATA PRIVACY

Is your data safe?

When these agencies make the wrong choice, it can result in irrecoverable damages to your business.

 The Straits Times

Manpower services firm fined \$9,000 for data leak affecting 23,940 people

A car rental company was also fined after the theft and sale of personal data sets from its database. Read more at [straitstimes.com](https://www.straitstimes.com).

16 Sept 2023

 CNA

Carousell fined S\$58,000 over data leaks that affected more than 2.6 million users

One such leak, which happened during a system migration process, led to Carousell customers' data being offered for sale on an online forum.

SCATTERED CLIENT INFORMATION

They don't communicate each other.

Apps and platforms do not communicate each other.

SOMEBODY must take action to copy, save, move, view any information stored in those apps

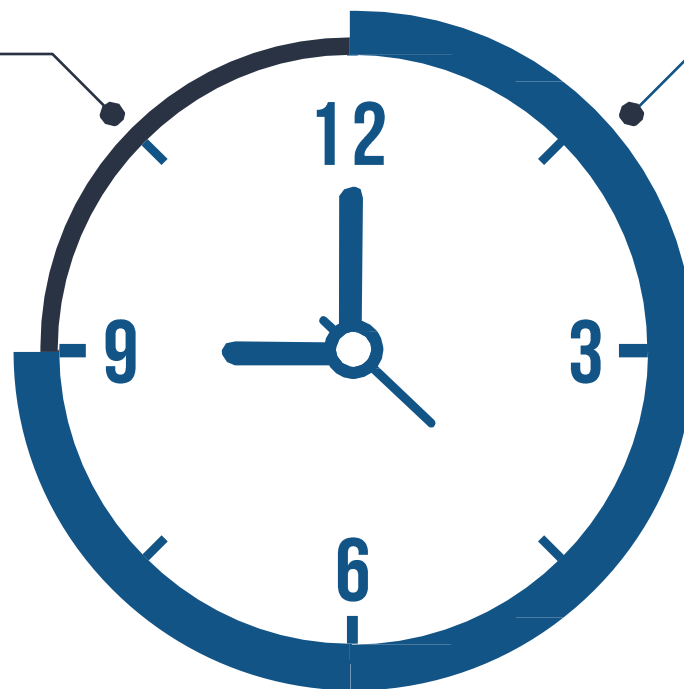

H/R MANAGEMENT

When employee resigns

Focus on your
business
seamlessly

With DTT

Worry about taking
clients with them

Documents handover

Recruit new employee

Run your business

Without DTT

OLD FASHION WAY OF WORKING

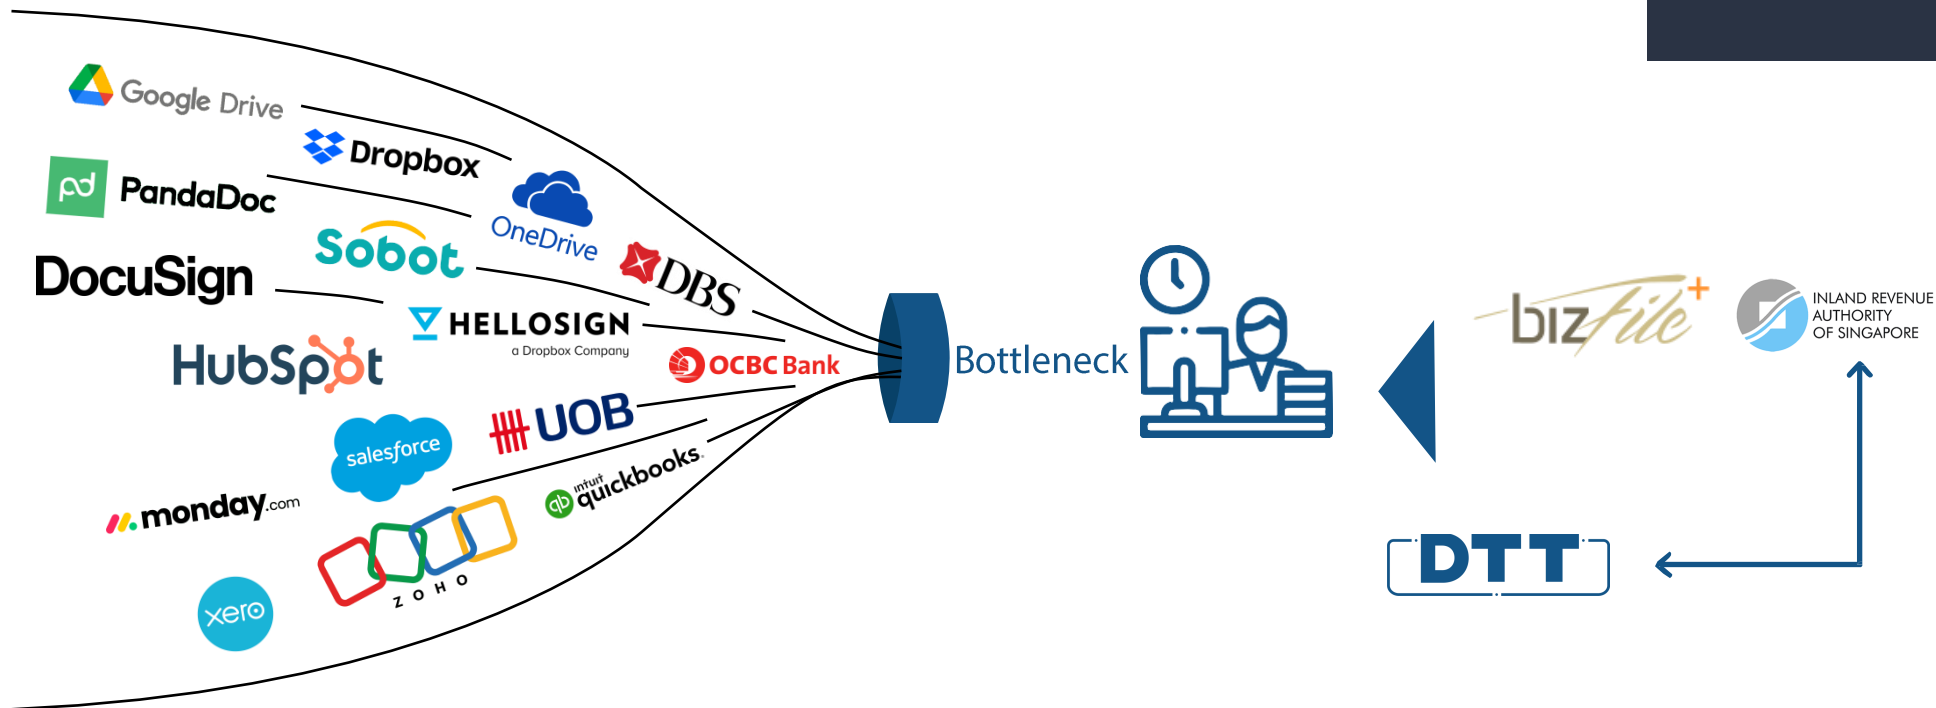

However, until now, Corporate Secretaries have been managing clients using analogue methods and various generic paid tools, making it difficult for potential clients worldwide who wish to enter Singapore to find a reliable corporate secretarial service provider.

WHY TILKOBLET?

Tilkoblet achieves the digital transformation of the entire business process by automating the manual bottleneck segment where employee performs reporting and filing for ACRA and IRAS.

T-Bizfile

Filing, reporting, and syncing of information are all automatically performed

HOW WE SOLVE THE PROBLEM

T-Sign

We offer digital signing services with clients available 24/7

T-Task

Tasks are automatically generated based on the client's due date

T-Drive

Store any data on cloud storage

T-Doc

All filing documents are automatically generated using client information

T-Bot

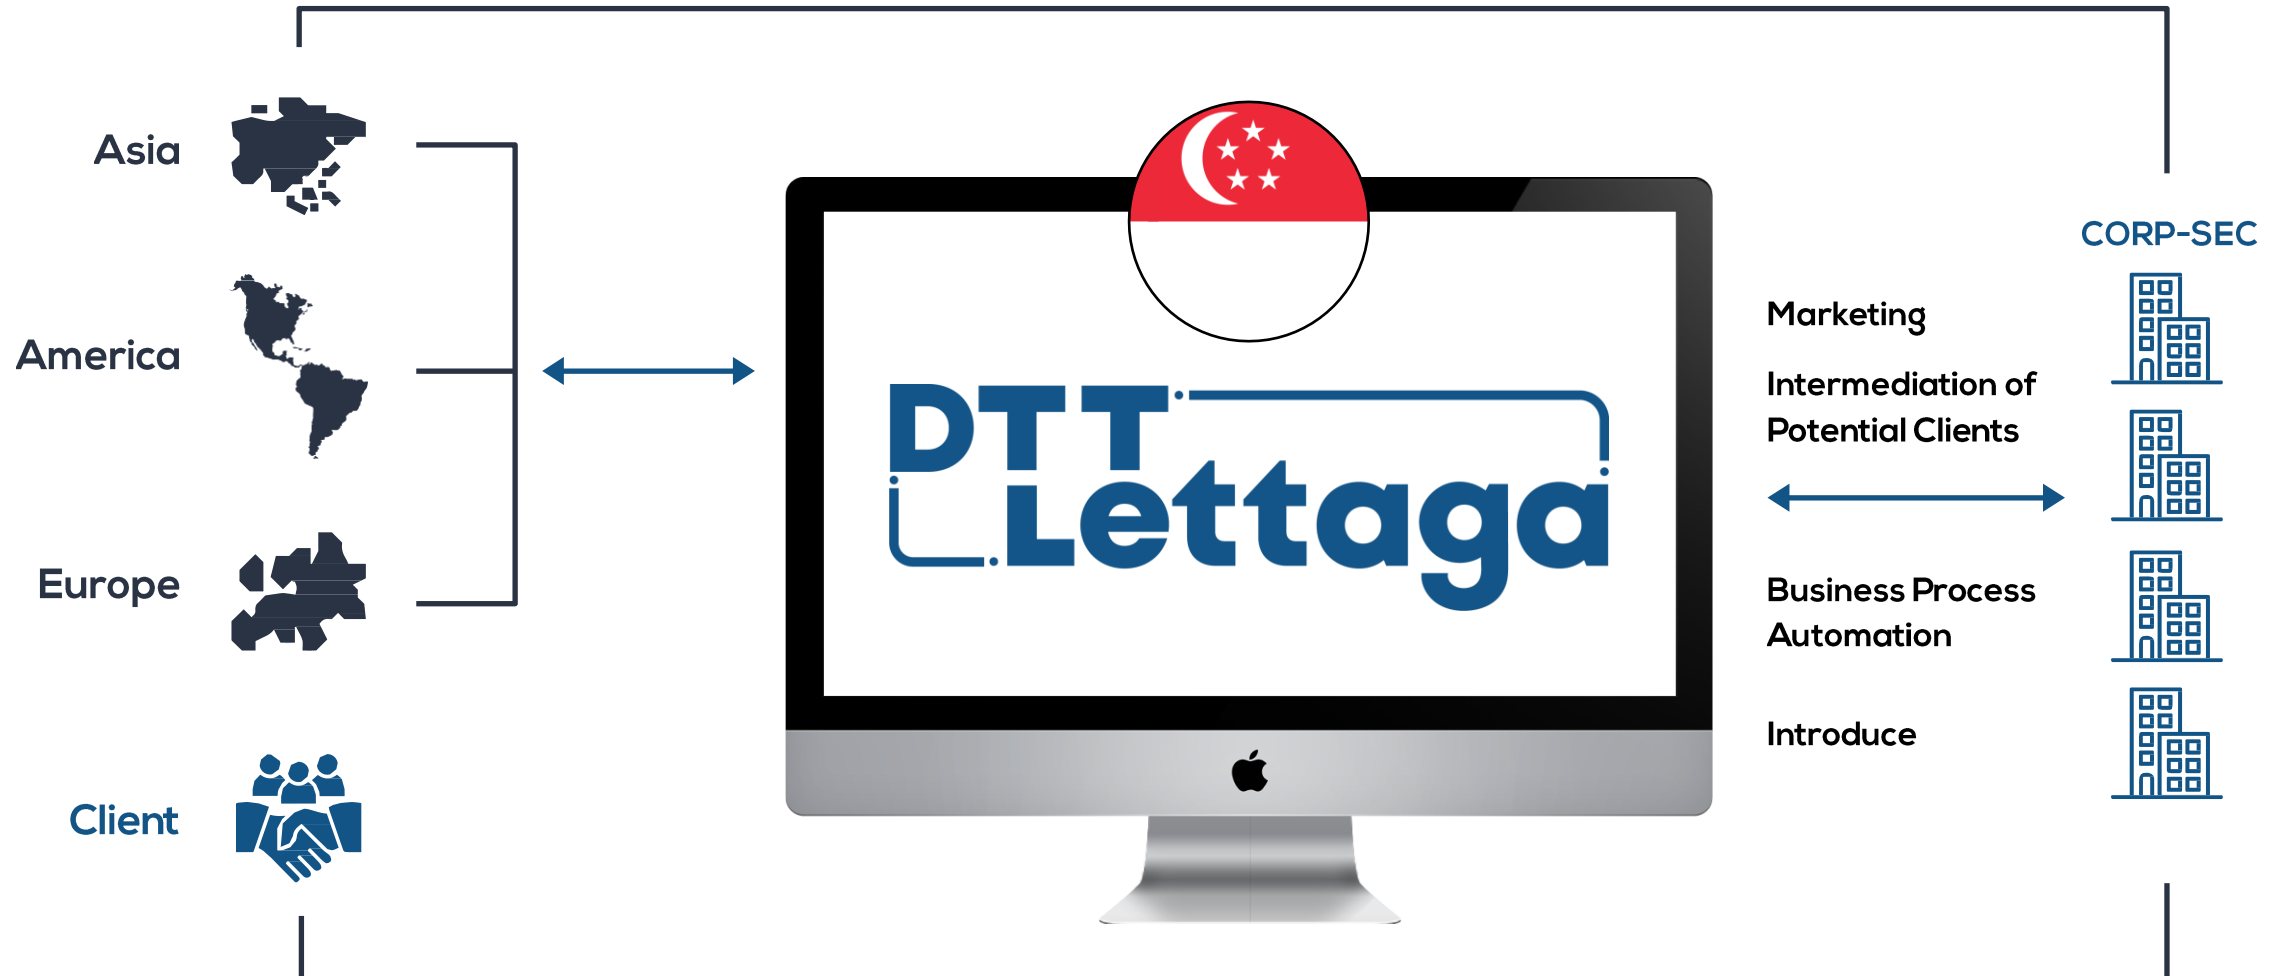

Communicate with potential clients from worldwide

T-Bank

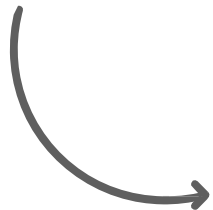

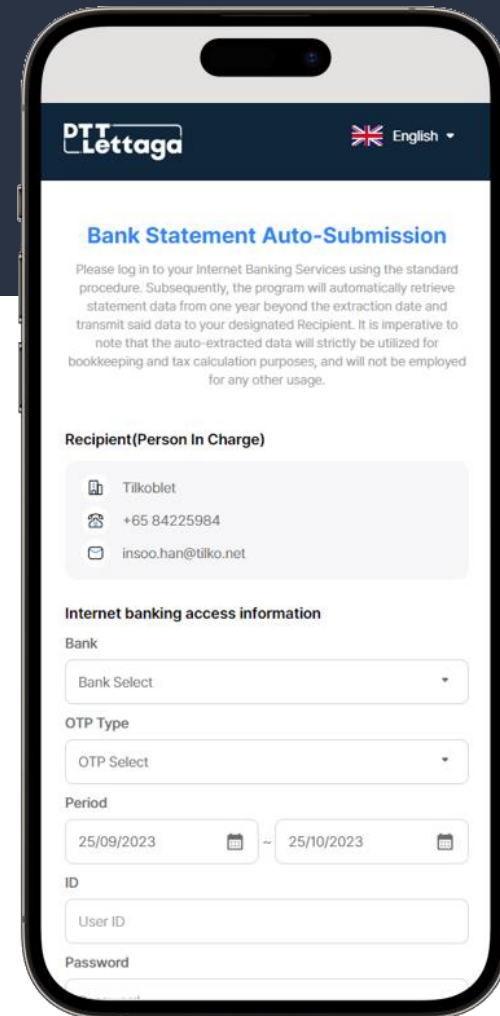

Filing, reporting, and syncing of information are all automatically performed

LETTAGA CONNECTS WORLDWIDE

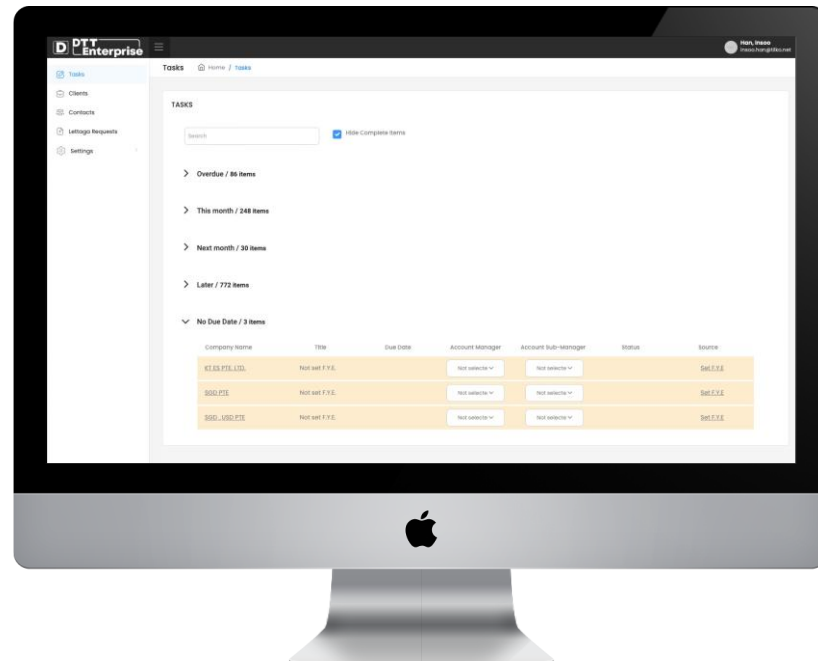

DTT AUTOMATES FILING & REPORTING

DTT is a Software as a Service (SaaS) platform designed for automating the operations of Corp-Sec's work. In addition to connecting potential clients, reducing labour costs and eliminating human errors.

**REAL-TIME
CONNECT**

DTT COMMUNICATES WITH POTENTIAL CLIENTS

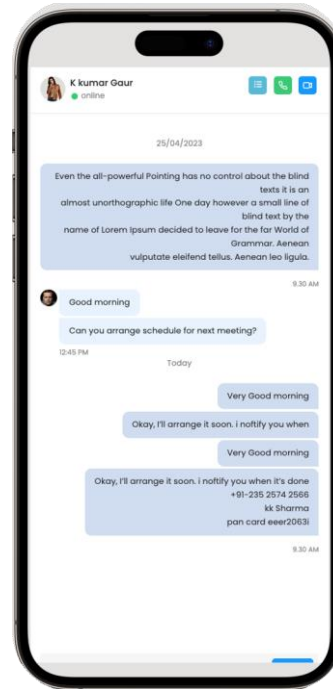

We connect potential client inquiries to partnered Corp-Sec through a consistent channel and facilitate communication.

Digital Transformation via Tilko - DTT

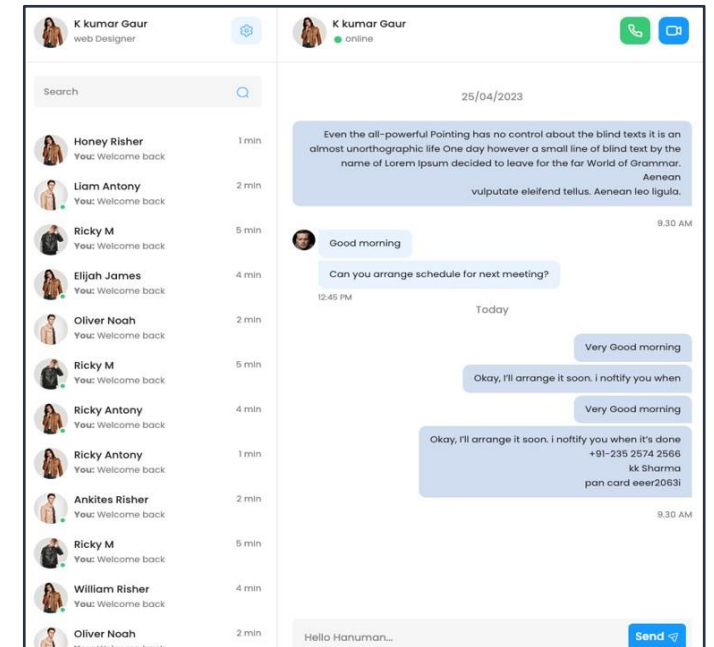

Frequent communication errors due to indiscriminate promotional emails and inconsistent channel communication.

Digital Transformation via Tilko - DTT

Inquire with our partnered Corporate Secretaries

DTT for customer(CORP-SEC)

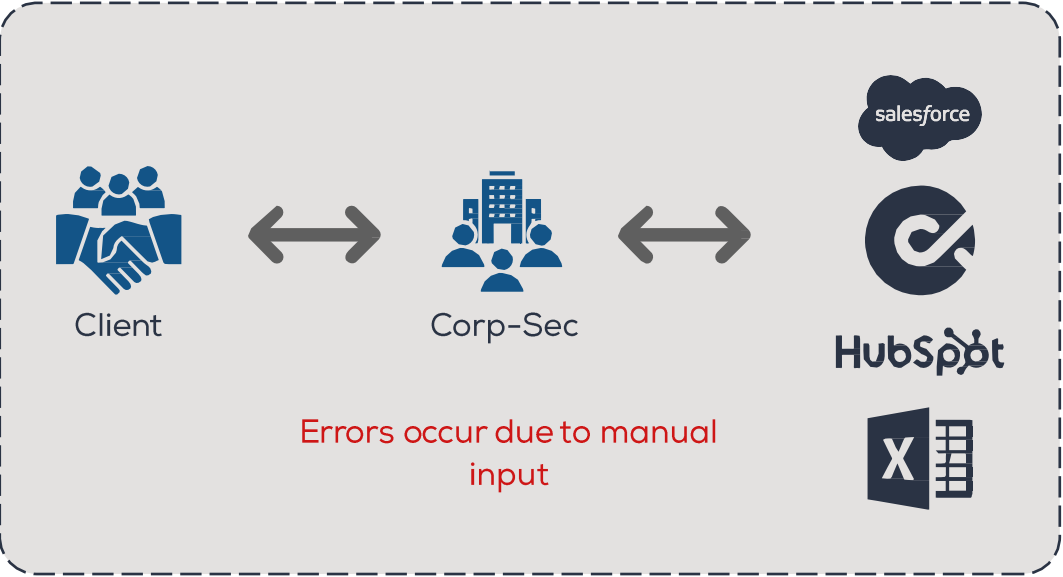

Communicate and manage through a consistent channel with potential clients

SYNC WITH BIZFILE BY ONE-CLICK

We synchronise and manage client information registered on Bizfile.

Digital Transformation via Tilko - DTT

The screenshot shows the 'Clients' management interface in the DTT Enterprise software. A blue banner at the top indicates 'Bizfile Synchronizing... 43(7/200)'. The interface includes a search bar, a 'Hide Inactive Client' checkbox, and a table of client records. The table has columns for 'No.', 'T-Drive', 'Company Name', 'UEN', 'Company Type', 'FYE', and 'Firm Name'. The records are numbered 1 through 15, and the table shows 'Showing 1 to 15 of 150 entries' at the bottom.
