PROBLEM.

PROBLEM.

The Corporate Secretarial Pain Point.

CLIENT CARE

How do you manage your client?

BANK STATEMENT

Do you still collect and refer to the client's bank statement manually?

DATA BACKUP

Where do you keep the client's data?

PROBLEM.

The Corporate Secretarial Pain Point.

MANUAL PROCESSES

Time-consuming
Manual
administrative tasks
are tedious and
prone to errors.

DOCUMENT ORGANIZATION

Locating specific documents
quickly becomes laborious
without an efficient system
for organization and retrieval.

LACK OF SCALABILITY

Managing increasing
volumes of documentation
manually becomes
impractical as corporate
secretary firms grow their
client base or handle more
complex business
structures.

TRACKING DEADLINES

Missing important deadlines
for filing annual returns,
convening
board meetings within
specified intervals can result
in penalties/fines.

Our Service. _____

DTT Enterprise.

DTT Enterprise.

What is DTT enterprise?

- DTT enterprise is a SaaS based software that helps Corporate Secretarial Companies to automatically report to ACRA and IRAS.
- From now on, all Client's information data is backed up to maintain accurate and up-to-date records ensuring seamless transitions without disruptions.
- DTT enterprise supports the below tasks for such submission without the need of human entry.

DTT receives data from clients in a secure and user-friendly manner

Received data is digitally submitted to ACRA / IRAS

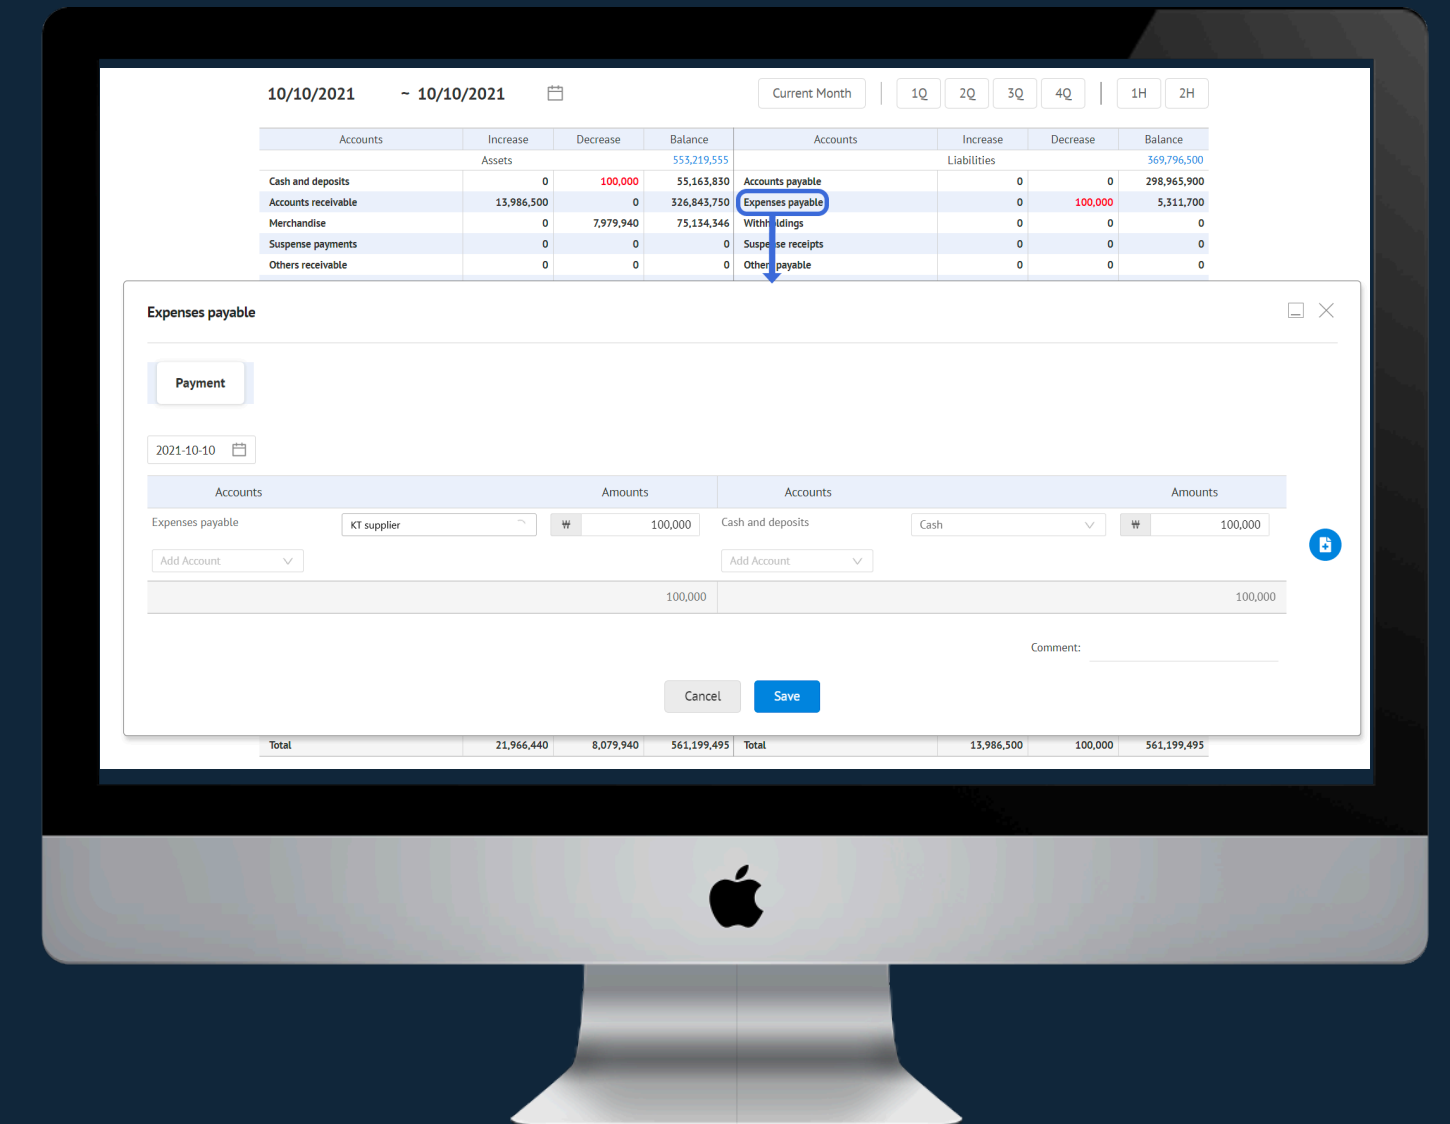

Synchronizes clients' company information with ACRA

Smooth migration process of client information ensuring a seamless transition

Simplifies the registration and management of client information

DTT Enterprise.

Efficient Document Management.

**SAY GOODBYE TO
PAPERWORK.**

- **Template Library:** Access a comprehensive library of pre-designed document templates, saving you time and effort in creating documents from scratch.
- **Customization Options:** Customize templates to match your company's branding and specific requirements, ensuring professional-looking documents every time.
- **Seamless Collaboration:** Collaborate with team members, directors, and stakeholders in real-time, streamlining document review and approval processes.

DTT Enterprise.

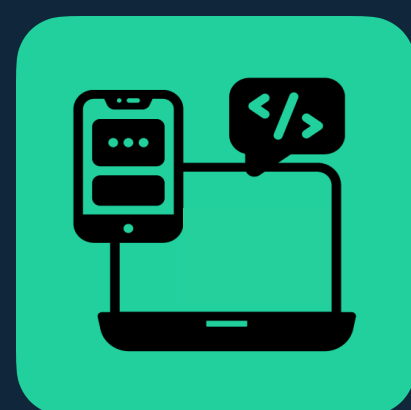

Seamless ACRA Filing.

**MINIMIZE ERRORS,
MAXIMIZE COMPLIANCE.**

- Integration: Seamlessly integrate with ACRA systems for smooth filing processes without the need for manual data entry.
- Real-Time Updates (ACRA Sync): Stay up-to-date with real-time updates on filing statuses, ensuring timely compliance and avoiding penalties.
- Simplified Process: Streamline the entire ACRA filing process with intuitive workflows and automated form generation, minimizing errors and maximizing efficiency.

DTT Enterprise. Smart Automation.

STAY AHEAD OF DEADLINES.

- **Reminders (AGM/AR):** Receive automated reminders for critical deadlines such as Annual General Meetings (AGMs) or Annual Returns (AR), helping you stay on top of compliance requirements.
- **Increased Efficiency:** Automate repetitive tasks such as data entry or report generation, freeing up valuable time for more strategic activities.
- **Reduced Compliance Risks:** Minimize the risk of non-compliance by leveraging smart automation features that ensure accurate filings and adherence to regulatory obligations.

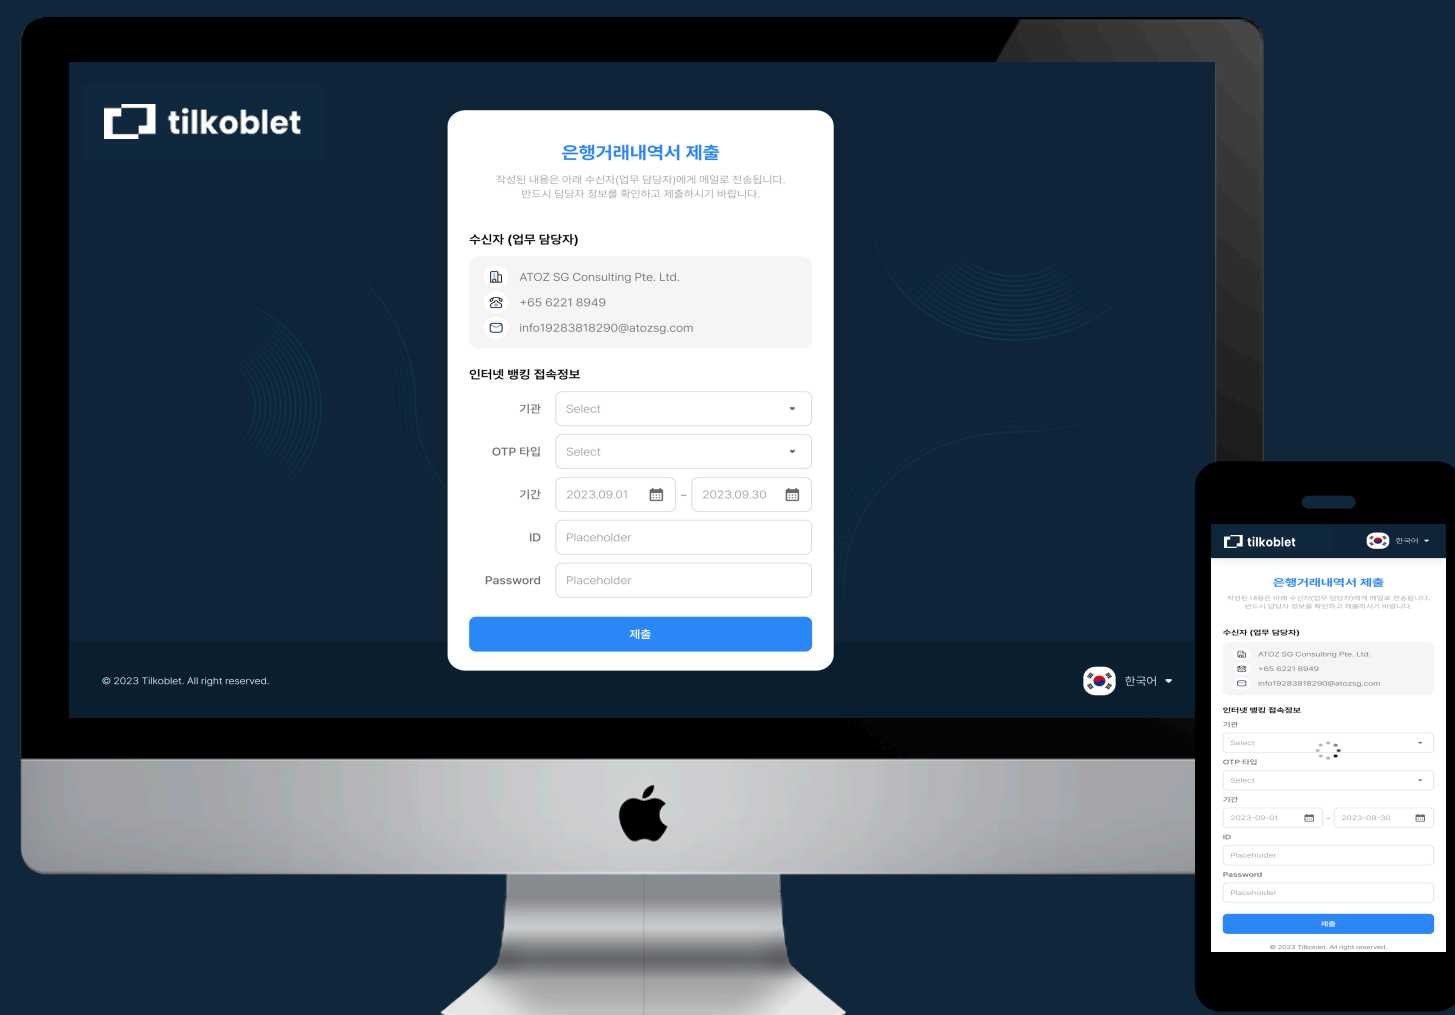

Our Service.

DTT Lettaga.

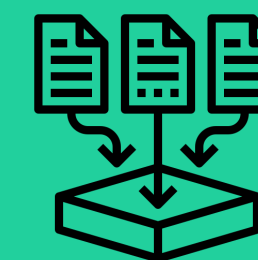

DTT Lettaga.

What is DTT lettaga?

From now on, you don't have to call the Client to explain.

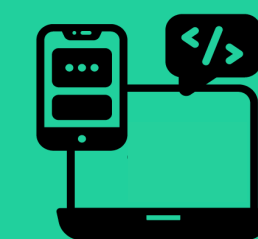

DTT lettaga collects bank statement data on behalf of client's authentication.

It receives bank statement data for a certain period specified by a Corp-Sec manager.

Whenever client visits the lettaga's website, and provide credential information, It starts to collect data from any of applicable bank's websites.

Manage your data in a standardized format.

THANK YOU
